EMAD KHATRUSH
FULL STACK WEB DEVELOPER

Profile

I am an ambitious and hardworking person, I have a very good experience as a web developer, building projects from scratch using HTML/CSS javascript and Node.js in the server-side.

Projects

2020

TAS-SWEETS SHOPPING PROJECT
E-Commerce Website
Tas-Sweets project is a shopping website that has products to sell and clients can select the products and adding them into the shopping cart then verify the payment with credit cards or PayPal.
The project has authentication and authorization in which clients are able to register or login to the website and see their orders they purchased.

Technologies that i used in the frontend:
HTML/CSS, javascript, bootstrap4, Jquery,
Backend:
Node.js, MongoDB, PayPal api, Stripe api

2020

THE RICK AND MORTY API PROJECT

cartoon app
The main goal of this project is to use rick and morty api to get data from api and display it into the frontend.

Technologies that i used in the Frontend:
HTML/CSS, javascript, bootstrap4, semantic-ui.
Backend:
Node.js
